

SOCIETY OF ALBERTA
ASEXUALS AND AROMANTICS

The Society of Alberta Asexuals and Aromantics has been dedicated to creating connections, increasing a-spec representation and awareness, and providing resources to the community and the public, in Alberta since 2014.

We come from a wide variety of backgrounds and regions, and find community through our similar experiences as asexual and aromantic people.

AROMANTIC: Someone who feels little to no romantic attraction toward other people. Aromantics (aros) usually fulfill their emotional needs through platonic relationships and may or may not also be asexual.

ASEXUAL: Someone who feels little to no sexual attraction toward other people. Asexuals (aces) may or may not also be aromantic, and some asexual people may want or have partners.
